Experience

Web Developer | Wantstats Research & Media Pvt Ltd, Pune

📅 Jan 2025 – Jun 2025

- Designing and implementing user interfaces using **React, PHP & Laravel, HTML5, CSS3, JavaScript, and TypeScript**.
- Creating **responsive and interactive web pages** compatible with multiple browsers and devices.
- Ensuring **UI/UX consistency** across web applications.
- Integrating **front-end with back-end APIs** for dynamic content.

Projects

➤ E-Commerce Platform

Developed a full-stack e-commerce system using Laravel with secure login, payment integration, and admin modules.

➤ Learning Management System

Developed a Laravel-based LMS with multi-role dashboards and interactive course modules.

➤ Chrome Extension

Developed a Chrome extension that enables sending messages and documents to users via WhatsApp. This extension is particularly useful for sending the same message to multiple recipients with attachments of any size, without specific constraints.
